

# CAMBRO®

**PROFESSIONAL DELIVERY**  
equipment and accessories

# CAMBRO®

CAMBRO is a well-known American supply brand products for the HoReCa industry.

70 years of experience in the production of equipment and accessories for food delivery makes the company the absolute leader in its field.

For many years, the main idea of CAMBRO has remained the same - production and delivery of innovative products with the highest quality!

The proposed assortment will be perfect in hotels, restaurants and gastronomic points offering catering services.

The brand cares about the environment and ecology - Cambro products can be used for many years and are 100% recyclable, thus reducing the quantity of waste.

**From now CAMBRO in HENDI!**

**Lightweight** – made of EPP (Expanded Polypropylene) an eco friendly high performance insulation material

**Chemically Inert** – unaffected by oil, grease and most chemicals

**Excellent Energy Absorption** – can withstand substantial impact without damage

**Great Structural Strength**  
– capable of handling significant loads while maintaining its shape and form

**Dishwasher safe**

**Safe for 100% food contact**

**Recyclable**

## CONTANTS

- 4 Food containers
- 10 Thermal insulation containers
- 24 Thermal insulation bags
- 28 Dishwasher baskets
- 32 Trays
- 36 Trolleys
- 38 Racks
- 39 Kitchen accessories

US and metric scale make it easy to control the amount of product in the container

## COLD TEST

Tests prove that Camwear containers keep products in low temperature better than stainless steel containers

- Designed for food storage, transport and serving
- Completely safe and hygienic thanks to damage-resistant, unbreakable polycarbonate
- Camwear® plastic does not react with food – it has the lowest contamination level and is completely BPA-free
- US and metric graduations make it easy to control the amount of product put in the container

- Effectively maintains low temperatures better than stainless steel cookware
- High temperature resistance (from -40°C to 99°C) contributes to the wide use of the containers in food service establishments
- Stackable and space-saving
- Dishwasher safe

## CAMWEAR® PERFORATED DRAIN SHELF FOR CAMWEAR® GN CONTAINERS (10CWD135)

- Designed to drain excess water from food placed in a GN container.
- Made of food grade materials.
- Perforated, ensures proper food storage conditions and prevents it from being submerged in drained water.

## CAMWEAR® SEAL COVER, ONLY FOR GN CONTAINERS OF THE CAMWEAR® SERIES AND MADE OF TRANSPARENT POLYPROPYLENE

- Secures the contents of GN containers.
- Protects from spills and extends shelf life thanks to the internal seal.
- Made of food grade material.

## GN CONTAINER MADE OF TRANSPARENT POLYPROPYLENE

# CAMBRO®

Standardised rim width, 1.27 cm, ensures proper fit with tables and buffets

Transparent polypropylene makes it easy to control content and keep high chemical resistance

Smooth surface inside makes it easy to clean

- An essential tool for storing, transporting and serving meals.
- Made of durable, transparent polypropylene.
- High chemical resistance of the material ensures safety when it comes in contact with food.
- High temperature resistance (from -40°C to 70°C) makes the product widely used in food service establishments.

- Stackable for easy storage during transport and for space-saving.
- Effectively maintains low temperatures to a degree similar to stainless steel cookware.
- Dishwasher safe.
- Container accessories:
  - perforated drain shelf made of transparent polypropylene.
  - Camwear® lid with seal.

### CAMWEAR® SEAL COVER, ONLY FOR GN CONTAINERS OF THE CAMWEAR® SERIES AND MADE OF TRANSPARENT POLYPROPYLENE

- Secures the contents of GN containers.
- Protects from spills and extends shelf life thanks to the internal seal.
- Made of food grade material.

Handles, which help during moving the container

Easy to wash smooth surface  
Stain and smell resistant

Uneven base minimizes the possibility of scuff marks

Crystal clear polycarbonate  
Camwear® makes it easy to identify the content

- Designed for storing food products.
- Made of odor and stain resistant, clear, food grade polycarbonate that extends food product freshness.
- Crystal clear – allows for quick identification of stored food products without removing the lid.
- Camwear® material is resistant to temperatures from -40°C to 99°C, thanks to which the container can also be stored in cooling cabinets.
- Smooth internal surface for easy cleaning.
- Rough bottom surface increases container's scratch

- resistance and stability.
- Space-saving thanks to its stackable design.
- Capacity: 83.3 L.
- Dishwasher safe.
- Compatible with polycarbonate lid (1826CCW135).

code	liters	mm	€
182615CW135	83.3	460x660x(H)380	114,00

## CAMWEAR® POLYCARBONATE COVER FOR CONTAINER 182615CW135

- Designed for storage box (182615CW135) with matching dimensions (457x660 mm).
- Helps maintain food freshness for longer.
- Made of tough polycarbonate with a temperature tolerance range of -40°C to 99°C, so the container and cover can also be stored in a cooling cabinet.
- Dishwasher safe.

code	mm	€
1826CCW135	457x660	31,50

# H-PANS™ HIGH HEAT RESISTANT PAN WITH A HANDLE, 24 L

CAMBRO®

- Suitable for all types of ovens, including single and continuous ovens and microwave ovens
- Large temperature range (from -40°C to 190°C) allows for heating, baking and grilling food or storing food in cooling cabinets.
- High heating efficiency thanks to a flat base.
- Reinforced handle with special texture and place for fingers for safer cooking, equipped with holes for draining the remaining water after washing.
- Capacity: 2.4 L.
- Dishwasher safe.

## STACKING OPTION

## CAMDOLLY TROLLEY®

compatible with GN 1/1 Cam GoBoxes  
(CD3253EPP158); 4 swivel wheels,  
2 with brakes - see more on page 22

- Insulated carrier with fitted lid is especially useful in catering and food service establishments where high resistance to mechanical damage and maintaining constant temperature inside the box are required.
- Food grade packaging.
- Perfectly maintains both low and high temperatures of food for over 4 hours.
- Suitable for use in a temperature range from -40°C to 120°C.
- Made of expanded polypropylene (EPP) highly resistant to mechanical damage and weathering, CFC-free, 100% recyclable.
- Top-loaded for improved food transportation.
- Contains 1 GN 1/2 container with a max. height of 200 mm or several containers of correspondingly smaller size.
- Vertical slots inside keep GN containers in place and facilitate

- placing items in and taking them out of the box.
- A system of inserts and grooves in the corners of the box ensures a stable lid and safe transport of food.
- Insulation thickness: 30 mm.
- Very light.
- Ergonomic handles and a strap for easy transport.
- Designed place for label with description to identify the box contents.
- Stackable.
- Easy cleaning. Dishwasher safe.
- Box, lid and strap in black.
- Meets legal and hygienic requirements regarding food grade packaging.
- Capacity: 22.3 L.
- Net weight: 800 g.

#### PROFESSIONAL GRADE INSULATED CARRIER CAM GOBOX® FOR BEVERAGES, TOP-LOADED, WITH SHOULDER STRAP, 35 L

- Insulated carrier with fitted lid for transporting bottles and other containers with beverages at the right temperature, especially useful in catering and food service establishments, where high resistance to mechanical damage is required
- Made of food grade materials
- Perfectly maintains both low and high temperatures of beverages for over 4 hours
- Suitable for use in a temperature range from -40°C to 120°C
- Made of expanded polypropylene (EPP) highly resistant to mechanical damage and weathering, CFC-free, 100% recyclable
- Top-loaded for improved transportation
- Thermobox holds 12 tall bottles of wine with a capacity of 0.75 L or 12 plastic bottles with a capacity of 1.5 L
- A system of inserts and grooves in the corners of the box ensures a stable lid and safe transport
- Ergonomic handles and a strap for easy transport
- Designed place for label with description to identify the box contents
- Stackable
- Easy cleaning
- Dishwasher safe
- Box, lid and strap in black
- Meets legal and hygienic requirements regarding food grade packaging
- Net weight: 1.02 kg.

#### PROFESSIONAL GRADE INSULATED CARRIER CAM GOBOX® WITH A BLACK STRAP, GN 1/2

- Insulated carrier with fitted lid is especially useful in catering and food service establishments where high resistance to mechanical damage and maintaining constant temperature inside the box are required.
- Food grade packaging.
- Perfectly maintains both low and high temperatures of food for over 4 hours.
- Suitable for use in a temperature range from -40°C to 120°C.
- Made of expanded polypropylene (EPP) highly resistant to mechanical damage and weathering, CFC-free, 100% recyclable.
- Top-loaded for improved food transportation.
- Contains 1 GN 1/2 container with a max. height of 200 mm or several containers of correspondingly smaller size.
- Vertical slots inside keep GN containers in place and facilitate placing items in and taking them out of the box.
- A system of inserts and grooves in the corners of the box ensures a stable lid and safe transport of food.
- Insulation thickness: 30 mm.
- Very light.
- Ergonomic handles and a strap for easy transport.
- Designed place for label with description to identify the box contents.
- Stackable.
- Easy cleaning.
- Dishwasher safe.
- Box, lid and strap in black.
- Meets legal and hygienic requirements regarding food grade packaging.
- Capacity: 22.3 L.
- Net weight: 800 g.

## CAMSHELVING® TROLLEY FOR TRANSPORTING 9 × GN 1/1 CONTAINERS

# CAMBRO®

- Designed to transport GN containers of different heights in food service establishments and during catering events
- Constructed with state-of-the-art composite material resistant to food acids and chemicals, easy to clean
- Designed for excellent load capacity while maintaining adequate airflow between containers
- Interspaced at: 76 mm
- Locking guides secure GN containers preventing them from slipping out
- High heat resistance (up to 200°C) allows for transport of even very hot containers
- High stability during transport thanks to 4 quiet swivel castors coated with non-marking thermoplastic rubber
- Suitable for cleaning with pressure washers
- Modular design
- Possibility to transport GN containers in different configurations

### TRANSPORT TROLLEY FOR 18x GN 2/1 CONTAINERS

- Capacity:
  - 18x GN 2/1 (H)65 mm
  - 9x GN 2/1 (H)100 mm
  - 9x GN 2/1 (H)150 mm
  - 6x GN 2/1 (H)200 mm
- or double the number of GN 1/1 containers of the appropriate height
- Permissible load capacity, provided that the load is distributed evenly
  - pair of guides 45 kg
  - full trolley 340 kg
- Net weight: 27.7 kg

# TRANSPORT AND STORAGE CADDY FOR ROUND PLATES, COMPACT, S-SERIES

**CAMBRO**

Max. height of the plate column: 521 mm

Smooth surface and rounded corners are easy to clean

Lightweight construction, molded in one piece

Swivel, low-noise wheels coated with non-marking rubber

Plate measurements:  $\varnothing 235$  do  $\varnothing 305$  mm  
Plate stacks: 4  
Collective capacity: 280 pcs.

Plate measurements:  $\varnothing 229$  mm  
Plate stacks: 5  
Collective capacity: 350 pcs.

- Designed to transport and store stacks of round plates of different diameters.
- Made of durable polyethylene.
- Lightweight construction, rotomolded in one piece.
- Resistant to mechanical damage.
- Handles on four sides.
- 4 movable CamLever dividers (included) that divide the rack space according to the diameter of the dishes and stabilise the stacks.
- Smooth surface and rounded corners – easy to clean.
- Swivel, low-noise castors coated with non-marking rubber.
- Colour: speckled grey.
- Weight: 35.2 kg.

- Max. load: 227 kg (provided that the load is distributed evenly).
- Number of plate stacks: 4 or 5.
- Max. height of the plate column: 521 mm.
- Standard capacity (4 compartments):  
350 plates of  $\varnothing 229$  mm or 280 plates of  $\varnothing 235$ -305 mm.
- Load capacity can be increased up to 560 plates of  $\varnothing 146$ -191 mm or 350 plates of  $\varnothing 197$ -222 mm by using 4 additional CamLever dividers (ADCSC4480; to be purchased separately).
- The set includes: vinyl cover with identification pocket (7.6x12.7 cm).

code	mm	€
ADCSC480	686x686x(H)807	1 150,00

## CAMLEVER PLATE DIVIDER FOR ADCSC480 CART

- For use with Cambro S-series round plate cart (ADCSC480).
- Made of polyethylene resistant to mechanical damage.
- Thanks to the CamLever, the division can easily be moved and securely mounted to the bottom of the cart.
- The division enables stabilisation of the transported stacks of plates and divide the loading space to match the diameter of the plates.

code	mm	€
ADCSC4480	67x111x(H)597	294,00

# CAMSHELVING® BASICS PLUS STORAGE RACK MADE OF COMPOSITE PLASTIC WITH 4 VENTED SHELVES

Option to wash shelf plates separately in the dishwasher using OETR314151 – see more on page 30

Lifelong warranty for formation of rust and corrosion

Max. load of the entire rack: 800 kg

Adjustable shelf level

Units can be combined to create more uninterrupted storage space

- Designed for convenient storage of supplies in any food service establishment.
- Made of composite plastic – lightweight yet strong and recyclable.
- Does not rust, cadmium-free.
- Stable, easy to assemble.
- Can be easily adapted to the needs of the kitchen by adjusting the height of the shelves.
- Vented shelves allow for maximum airflow.
- Withstands high temperature (from -38 °C to +88 °C), perfect for use in hot kitchens as well as in cold rooms and freezers.
- Shelf plates are dishwasher safe.
- Units can be combined to create more uninterrupted storage space.
- Max. load of the entire rack: 800 kg (190 kg per shelf)
